Finally, I would like to commend a book that is of special interest to parents who home educate their children, but not exclusively so. The book is entitled,

**THE STORY OF GOD'S DEALINGS WITH OUR NATION (A History of England of Wales). Volume 1: Earliest Times to the Tudors.** Ichthus Resources, ring-bound A4 format, 144 pages. £12.00

Written from a concern to provide her children with English and Welsh history from a Christian perspective, the author, Mrs. Christina Eastwood, has succeeded in producing a really marvellous book. Beginning with Genesis 1 and coming to Ancient Britons and the Celts, then Roman Britain and all the way to the end of Elizabeth I, each section is succinct and yet full enough to educate and edify. The chapters are followed by Things to Do, Worksheets, and sources for further information and study. An answer booklet is available separately for £2.00. We highly commend this book – to be followed by Volume 2 later this year, God willing. May the Lord use this book among all who home educate their children, and as a supplement (sometimes antidote) to the history taught in the schools of our land.
